About me

Hello, my name Aleksandr and I Font-end developer.

In this area, since 2017, from the very beginning of my work, I have been focusing on the timely execution of tasks, the accuracy and purity of writing code. From personal qualities I can single out responsibility, stress resistance, sociability. Since early childhood I have been engaged in team sports, so I know perfectly well what team work is.

I am a co-founder of a charity running club for people with cerebral palsy. From a hobby I can distinguish active sports, travel, cars
